The Policy & Internet conference is pleased to present a special methods workshop hosted by the Australian Text Analytics Platform (<https://www.atap.edu.au/>). At the workshop, you will learn how to use the Document Similarity tool, which enables users to identify documents (in a dataset/collection) that are similar to each other, placing document pairs side-by-side, with differences in the documents highlighted for easy inspection. An example application might be to analyse internet privacy policies, comparing different versions of such documents as they are updated. Don't miss this opportunity to elevate your content analysis prowess.

18:00 – Cocktail event, Launch of the e-Safety Commissioner report.
